PROFESSIONAL SUMMARY:

Software Developer with 1.5+ years of experience in designing, developing, and maintaining full-stack web applications using Java, Laravel, PHP, Python, Django, and React.js. Experienced in building scalable applications using MVC architecture with hands-on expertise in Java Servlets, JSP, JDBC, REST APIs, MySQL, MongoDB, and modern front-end technologies. Skilled in developing responsive user interfaces, implementing CRUD operations, debugging production issues, database optimization, and collaborating with development teams using Git and GitHub. Passionate about delivering scalable, high-quality software solutions and continuously learning emerging technologies.

PROFESSIONALSKILLS:

- **Backend:** Laravel, Django, Java Servlets, JSP, JDBC
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, JavaScript, jQuery, Blade (Laravel)
- **Database:** MySQL, MongoDB, phpMyAdmin
- **Framework Concepts:** MVC Architecture, Controllers, Models, Migrations, Routing
- **API Development:** REST APIs, CRUD Operations
- **Development Tools:** Eclipse IDE, Visual Studio Code, Apache Tomcat, Postman
- **Version Control:** Git (Add, Commit, Branch, Merge, Pull, Push)
- **Other:** Java Full Stack Development, Debugging, Production Support, Responsive Web Design

WORK EXPERIENCE:

Software Developer

Deltaworld Technologies Private Limited | July 2024 – December 2025

- Developed and maintained enterprise web applications using Laravel MVC Architecture.
- Built backend modules using Controllers, Models, Routing, and Database Migrations.
- Designed and managed MongoDB databases for patient records, treatment details, and medicine information.
- Developed responsive and cross-browser compatible user interfaces using Blade Templates, HTML5, CSS3, JavaScript, and jQuery.
- Implemented RESTful functionalities and CRUD operations for efficient data management.
- Performed debugging, testing, and production issue resolution to improve application stability.
- Optimized database structures and application performance, reducing query execution time and improving overall system responsiveness.
- Collaborated with developers using Git and GitHub for source code management and version control.
- Participated in feature enhancements, code reviews, and software maintenance activities.
- Followed clean coding practices and MVC design principles throughout the development lifecycle.

INTERNSHIPS:

TECHNEX | Web Development Internship | October 2022 – November 2022

- Designed and developed **responsive web pages** using **HTML5, CSS, and JavaScript**, ensuring compatibility across multiple browsers and devices.
- Built interactive UI components using **JavaScript DOM manipulation** to enhance user experience.
- Gained hands-on experience in building user-friendly interfaces and enhancing interactivity for the real-time web applications.
- Worked on **real-time web application interfaces**, focusing on layout structure, responsiveness, and performance.
- Collaborated with team members to understand requirements and implement UI changes efficiently.
- Debugged UI issues and improved page load performance through optimized CSS and JavaScript.
- Followed clean code practices and basic version control workflows during development.
- Participated in requirement analysis, testing, and deployment activities within the development team.

PROJECTS:

Food Delivery Web Application

Technologies:

Java, JDBC, Servlets, JSP, MySQL, HTML, CSS, JavaScript

- Developed a full-stack Food Delivery Web Application using Java, JDBC, Servlets, JSP, and MySQL.
- Implemented MVC Architecture for better code organization and maintainability.
- Built modules for restaurant management, menu management, user authentication, shopping cart, and order processing.
- Developed CRUD functionalities for users, restaurants, food items, and orders.
- Integrated frontend JSP pages with backend Servlets for seamless data flow.
- Optimized SQL queries and performed debugging to improve application performance.
- Gained hands-on experience in end-to-end web application development.
- Implemented user authentication and session management.
- Developed responsive user interfaces using HTML, CSS, JavaScript, and JSP.
- Integrated JDBC with MySQL for database connectivity.
- Followed MVC Architecture to improve maintainability and scalability.

Travel Agency Website

- Designed and developed a responsive Travel Agency website using HTML5, CSS3, and JavaScript.
- Created attractive UI layouts with a focus on usability and responsiveness.
- Developed interactive navigation and destination pages.
- Ensured cross-browser compatibility and mobile responsiveness.
- Improved user experience through clean UI design and optimized page layouts.
- Implemented responsive layouts using CSS Flexbox and Grid techniques.

EDUCATIONAL QUALIFICATIONS:

- Bachelor of Technology (B.Tech) – Computer Science and Engineering
Dr. K.V. Subba Reddy Institute of Technology
2024 | CGPA: 7.41 / 10 (74.17%)
- Intermediate (MPC)
Narayana Junior College
89%
- SSC
Sarvepalli Vidya Nilayam High School
87%
